## Help Fill a Local Need: Volunteer Your Time

*Submitted*

Find something in your community that suits you. This community primarily functions through volunteers. We have many new community members and this community can benefit from a little bit of your time. The many new community members tax the already over stretched, long standing volunteers that oil the works of the under supported needs of the north end communities.

If you have questions of how you can help feel free to contact me, Glenna Wade, via Facebook [glennasonly] and I can help you find an activity that suits you.<sup>25</sup>

## Box Tops For Education

*Stephanie Strickland*

My name is Stephanie Strickland. I am the sixth grade teacher at North Lake School, and I'm thrilled to be our school's Box Tops for Education™ Co-ordinator.

Clipping Box Tops is an easy way to help earn cash for our school. Each one is worth 10¢ for our school! Just look for the pink Box Tops on hundreds of products. All you have to do is clip them and send them to school.

Each classroom will be collecting filled collection sheets and/or trimmed box tops, so send them in with your student at any time. For more information on Box Tops go to [www.BTFE.com](http://www.BTFE.com). Be sure to sign up as a member (it's free!) so you can check out our school's earnings details and get access to coupons and bonus offers.

North Lake School has been without a Box Tops coordinator for a few years, and even so, we had \$64.00 worth of box tops to send in on November 1, 2017 submission day. With your help, I am sure we can reach \$1000.00 by the next submission date on March 1, 2018.

If you have any questions, please don't hesitate to contact Roxanne Hand or me. We are here to help make our school's Box Tops for Education™ program a huge success.

Thanks for your help!

### CHRISTMAS VALLEY 2017 BAZAAR A ROARING SUCCESS

Trimmed in Christmas tree like fashion, the annual Christmas Valley Bazaar went off with nary a hitch. Although, if you were looking for a hitch, a trailer hitch for example, one might be found on one of the vendors tables strewn throughout the Christmas Valley Community Hall.

December 1<sup>st</sup> and 2<sup>nd</sup> were 2017's designated slot for this yearly event. When I pulled up, rather late mind you, to take pictures for my Mom Fran Baxter, who is the event organizer, I was amazed at the lack of parking spaces available close to said hall. So, parking on the road and hoofing it in was my only option. Upon sneaking in the back door, which has its benefits of raiding Barb Ferrando's kitchen for yummy edibles, and, I should interject that Barb is the chef behind the North Lake Soup Kitchen. Camera in hand, I was greeted with a throng of people meandering cheerily among the event floor.

On this floor I was taken aback by the vendors dressed up in ugly sweaters for the two-day Ugly Sweater Contest. The most enthusiastically attired one was Joe Watts, an artist who took his skill set to his face and dress. He was the scariest Rudolph-The-Red-Nosed-Reindeer character that I've ever seen. Luckily for him, his hard work paid off with a win. His prize? An ugly women's sweater and, in keeping up with the rather wacky theme, he promptly put it on.

Another success was the wreath sales by the Christmas Valley Boosters. Their continued involvement helps generate funds donated to obtain school items for children in the community. Besides ugly sweaters, the theme I picked up on was the camaraderie and smiles adorned by all. See ya next year.

## LOCAL FISHING REPORT:

### ANA RESERVOIR: hatchery rainbow trout, hybrid bass

Fishing has been very good recently for rainbow trout in the 10- to 16-inch range. Fly fishing and bait fishing has been productive this past weekend. This lake is open year-round, providing a great opportunity to catch hybrid bass and rainbow trout. A 16-pound hybrid bass was caught earlier this season and hybrid bass larger than 20-inches are not uncommon. Hybrid bass are targeted successfully using crank baits and fishing bait along the bottom.

The new state record hybrid bass (white and striped bass cross) was caught in Ana Reservoir on Dec. 10, 2014. The fish was caught using a Rapala crankbait on 10 lb. test line and measured 31½ inches with a girth of 24 inches. The fish weighed 19 lbs. 12 oz. The new state record is 1 ½ inches longer and more than 1 lb. heavier than the previous record of 18 lbs. 9 oz. caught in 2009.

### ANA RIVER: hatchery rainbow trout

Ana River was stocked with 2,200 larger rainbow trout in the past two months. Ana River is great year-round fishery with a rainbow trout limit of 5 fish with an 8-inch minimum length. The Ana River is spring fed and rainbow trout are active throughout the year. Anglers can access these trout by floating the river in a float tube or by walking the banks. Bait is allowed and fly-fishing can be great.

Caddis flies are the dominant invertebrate, but small blue winged olive (size 18) mayflies are always a good bet. Ana River is a great match the hatch fly fishing river with good hatches throughout the year. Hatches typically occur during the afternoon from 12-3 p.m. the best time. Small mayfly hatches are typically best on overcast days with light rain or snow. Tui chub and pit roach are abundant in the river therefore casting large flies or lures can be effective for catching larger fish. Ana River has good trout fishing 365 days a year.

### DUNCAN RESERVOIR: hatchery rainbow trout and brown bullhead catfish

There is still access to this reservoir and fishing should be good. Trolling damsel and dragonfly patterns are good options as well as leeches. Productive patterns for this reservoir include: damsels, midges, leeches and water boatman. Bait fishermen can catch trout near the dam as well.

A recent illegal introduction of brown bullhead will negatively impact the trout fishery in the future. ODFW encourages the retention of all brown bullhead captured in this fishery.

### THOMPSON VALLEY RESERVOIR: hatchery rainbow trout, largemouth bass

No recent fishing reports, but the lake is most likely starting to freeze over and snow is going to start restricting access. If edges of the reservoir are open it might be a good time to try bait or flies near ice shelves.

### TWIN LAKES: rainbow trout, brook trout

The lake was stocked in early July with legal- and trophy-sized rainbow trout. Anglers are reminded that regulations have changed. The daily bag limit is one trout, 15 inch minimum length.

**Seasonal Thoughts**

By Katharine Matchette

'Tis the season of—Hallmark channel and sappy movies about falling in love instantly, and about Santa Clause. It's also the season of worry. Will people shop as much as last year? Will the merchants make any money? Every night some newscaster touches on how badly the shopping season is going. Frankly, I'd rather think about Santa Clause.

I find the story of Santa and his North Pole workshop charming. I regularly told Santa what I wanted when I was a kid. Nevertheless, I admit that when I was 10 or so and discovered that some kids think Santa Clause is a real person with real reindeer, I was shocked. Not "believing" never spoiled my fun talking to Santa one bit.

Who is Santa anyway? Our word Santa Claus is a corruption, or nicely put, a linguistic evolution of the word Saint Nicholas. Nicholas became a saint because he practiced love and generosity. We have no exact historical records, but tradition says that Nicholas was born sometime in the A.D. 200s or 300s. Apparently his parents had great riches. When they died, Nicholas inherited it, but he kept none of it for himself. Instead, he gave it away when he saw need.

Nicholas had no desire to gain attention from his generosity. Thus, the legend says he delivered his gifts under cover of darkness. Parents, not knowing when or if Saint Nicholas would favor them, urged their children to go to sleep early, clearing the way for his secret visits.

As it happened, Nicholas lived during the rule of the Roman Emperor Diocletian. In AD 303 Diocletian began persecuting Christians, hoping to wipe them out. The story has it that Christians refused to worship him as a God, claiming allegiance only to the Triune God, Father, Son, and Holy Spirit. Like many others, Nicholas went to prison where he stayed for five years. When Constantine, who favored Christianity, took over as emperor, Nicholas and many others got out of jail. Soon he resumed his job as the bishop of Myra in modern-day Turkey—and continued his life of helping others.

One of the most famous stories of Saint Nicholas's life concerned three poverty-stricken girls. One account says they were about to be sold into prostitution, another that their father simply had no money for dowries so they could marry. Saint Nicholas made a night visit and found their stockings by the fireplace hanging up to dry. He left large gifts of money in them.

Because of his good works and miracles (in Jesus' name), the Eastern Catholic Church made him a saint. Today, people celebrate December 6 as the official day of Saint Nicholas.

The Dutch knew Nicholas as *Sinter Class*. They brought his tradition with them to New Amsterdam (now New York City). English speakers transformed the name into Santa Claus, and nearly forgot the saintly tradition.

The North Pole story may be a bit hard to swallow, but the life of Saint Nicholas is not. He lives on wherever men "catch" the love and generosity God inspired in Nicholas, and pass it on.

*Editors note: Katharine Matchette has decided that this will be her last article for us. We will miss this addition to our paper.*

Essential Oils **BLACK PEPPER**/piper nigrum - Piperaceae family.

Pepper has been used for thousands of years for malaria, cholera, and several digestive problems. It is not just a seasoning for your food, but then most of the herbs and plants on earth are useful for one thing or another, as GOD intended when he created them.

The oil of black pepper may increase cellular oxygenation, support digestive glands, stimulate the endocrine system, increase energy, and help rheumatoid arthritis, helps with loss of appetite, catarrh, chills, diarrhea, dysentary, dispepsia, dysuria, flatulence when combined with fennel, flue, heartburn, influenza, nausea, neuralgia, poor circulation, poor muscle tone, quinsy, sprains, toothache, vertigo, viruses, and vomiting.

The inhaled vapor is found to reduce cravings for cigarettes and anxiety in smokers deprived from smoking. It also increases cerebral blood flow and improves the swallowing reflex in elderly people who have suffered from stroke. Pepper is comforting and stimulating, when blended with fennel, frankincense, lavender, marjoram, rosemary, sandalwood, and other SPICE oil it is an enhancer. CAUTION: Can be extremely skin irritating.
