## DESERT WHISPERS

The intent of **DESERT WHISPERS** is to publish a variety of information from all aspects of life in North Lake County. We neither support nor condemn any ideas, creed, religion, custom, attitude, belief or law. Opinions expressed are not necessarily the opinions of the North Lake Park & Recreation District Board members, staff, personnel or advertisers. The North Lake Park & Recreation District is not responsible for errors in articles and/or ads submitted to be published without change. The North Lake Park & Recreation District Board of Directors reserves the right to reject any submitted material for any reason.

**DESERT WHISPERS** welcomes letters to the Editor. Letters should be printed or written clearly. Each letter **must be signed**. **DESERT WHISPERS** reserves the right to condense long letters or to edit for content. We will avoid this whenever possible. **DESERT WHISPERS** reserves the right to judge the acceptability of a letter in regards to vulgarities, profanities, or slanderous content.

Deadlines for **DESERT WHISPERS** are at least seven (7) Days before issue dates of the 1st and 15th of each month. Please have your ad or article to the **DESERT WHISPERS** office BEFORE the published deadline. If the ad or article is NOT received by 2 pm on the deadline, it may not make it into that issue. Ads and articles can be received by mail, by e-mail, or dropped off at the office.

- Mark Joseph Russell, Editor

## Communicating With The DW Editor

Since I started working on **DESERT WHISPERS** three and a half years ago, I'd been working with a fairly loose policy that allowed advertisers to verbally tell me of new ads or changes to ads already running. This was even commonly done when I was "off the clock" and away from the office. It was not a perfect system, but for the most part it work adequately. Unfortunately, after 3-plus years, I forgot something significant.

Russell

Last month, one of our larger advertisers saw me at the post office and verbally told me of an additional advertisement for the next **DESERT WHISPERS**. I acknowledged the information and went on with my day. Time passed and I completely forgot about it. The paper was printed and distributed without the requested change.

As a result of this "oops" I am developing a better policy of documenting new ads, ad changes, and insertion requests.

1. The absolute best way to get information to me is by email. The correct email for all things **DESERT WHISPERS** is: [desertwhispers@yahoo.com](mailto:desertwhispers@yahoo.com)
2. Another good way to get information to me is to drop it off at the North Lake Park and Recreation office in Christmas Valley, either during working hours, or through the drop-slot near the door.
3. Alternatively, a call to 541-576-2216 (The North Lake Park and Recreation office) will get the information documented either on the message machine, or in a written memo.

Thank you for your patience during this transitional time.

- Mark Joseph Russell  
Editor of **DESERT WHISPERS**

## Participation with the Park and Rec Board

The North Lake Park and Recreation District Board of Directors invites you to be involved! The Board meets the second Tuesday of every month, and there are always opportunities to participate in your community. And, the time will come when a board member will step-down or retire, and you'll be primed to step-in and fill the gap. Call 541-576-2216 for more info.

## The Key to DW Content

The key to the content of **DESERT WHISPERS** is **you**, the community. In many ways this is **your** paper. **DESERT WHISPERS** is about **you**. It's about **your kids**. It's about local happenings. It's printed for **you** - for **your** information - for **your** entertainment. So, as the too-busy-to-do-it-all editor of one of the top three papers in the county (I don't want to offend anyone by saying **DESERT WHISPERS** is the best), I'm asking for **your** help in making this paper even better.

You may have noticed that I don't write many of the articles here. There are always a number of contributors, and **you** can be one of them. Some send in articles. Some send in photos. Sometimes I get an informative press release that is relevant to our community.

Did you attend a local event? Write an article about it and send it in. Did you see something interesting? Take a photo and send it in. Send submissions by email to: [desertwhispers@yahoo.com](mailto:desertwhispers@yahoo.com) or drop them off at the Park and Rec office.

Not everything can go in all the time, but most things submitted in a usable format do find a place in **DESERT WHISPERS** in one form or another.

Editor of **DESERT WHISPERS**

## HOT TIP:

Due to the nature of the paper used, the toner/ink, and the printing process **DESERT WHISPERS** does not make the best fire starter. Other publications printed on newsprint burn much better. Use **DESERT WHISPERS** to line your bird cage, or wrap fish.

## Back In Thyme: Essential Oils-Bergamot

Linda McCoslin

The extraction comes from the pressed rind/peel, which is rectified and void of turpenes. The oil's properties are: analgesic, antibacterial (strep and staph infection), antifungal, anti-infectious, anti-inflammatory, antiparasitic, antiseptic, antispasmodic, digestive, neuroprotective, sedative and uplifting.

In history the Italians used Bergamot oil to cool and relieve fevers, protect against malaria, and expel intestinal worms. The French used it medicinally for agitation, loss of appetite, colic, depression, indigestion infection, inflammations, insect repellent, insomnia, intestinal parasites, rheumatism, stress and vaginal candida.

Today, it is commonly used for calming agitation, brain injuries, colic, depression, all categories of stress (emotional - environmental - physical - performance), PMS, infections, physical energy and rheumatoid arthritis.

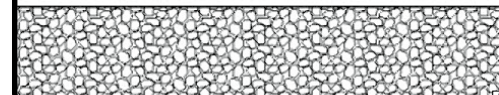

This essential oil may help acne, anxiety, appetite regulation, boils, bronchitis, carbuncles, cold sores, oily complexion, coughs, cystitis, eczema, the endocrine system, gallstones, gonorrhea, infectious disease, insect bites, to soothe the lungs, with psoriasis, respiratory infections, scabies, sore throat, thrush, acute tonsillitis, ulcers, spot varicose veins, and wounds. The aromatic value is to help relieve anxiety, depression, stress and tension. It is uplifting and refreshing.

## Nat. Public Lands Day: Devils Garden Cleanup

Volunteers will be sprucing up Devils Garden Wilderness Study Area on the Bureau of Land Management's Lakeview District for National Public Lands Day Saturday, September 30. As stewards, the BLM manages public lands for the benefit of current and future generations, supporting conservation as we pursue our multiple-use mission.

Devils Garden WSA is located in a volcanic field in north Lake County. Work to be performed include fence removal, trash collection, and site rehabilitation to return the area to its natural state. This family-friendly event offers an opportunity for community members to learn about WSAs and natural resource issues associated with managing these designated areas.

Participants will be served lunch and be presented with a commemorative National Public Lands Day shirt and a coupon good for free use of a BLM-managed fee site.

Some transportation will be provided. Volunteers from Lakeview will meet at 7:00 a.m. at the Lakeview Interagency Office, 1301 South G St.. Volunteers from North Lake County will meet at 9:30 a.m. at the Fort Rock Homestead Village Museum, 64696 Fort Rock Rd., Fort Rock.

For more information about Lakeview BLM's National Public Lands Day 2017 project, contact Greg Campbell at (541) 947-6126, or: [gecampbell@blm.gov](mailto:gecampbell@blm.gov).

National Public Lands Day is the nation's largest, single-day volunteer effort for public lands and brings together hundreds of thousands of individual and organizational volunteers to help restore America's public lands.

The BLM manages more than 245 million acres of public land, the most of any Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations. In Fiscal Year 2015, the BLM generated \$4.1 billion in receipts from activities occurring on public lands.

## Mary Alice Johnson 1942 - 2017

Mary Alice Johnson, age 75, of Christmas Valley, Oregon, entered Heaven's gates on Tuesday, August 8, 2017 after a courageous battle with cancer.

Mary was born in Rochester, Indiana on April 16, 1942. She was the daughter of Nolan and Alice Lewis. Mary graduated from Hillsboro High School in 1960. On May 28, 1960 she was united in marriage to Manford Johnson. They had 38 happy years together. In 1980, Mary opened her own Custom Cake and Decorating Supply shop in St. Helens, she closed in 1993 due to an illness. After Manford's death, October 14, 1998, Mary took over primary care of her handicapped grandson Joshua until this last round of cancer weakened her too much. Mary leaves behind her son John (Marina) Johnson of Aloha, and daughter June (Rob) Petitt of Scappoose. Mary also had 10 Grandchildren and 6 great grandchildren.

She was preceded in death by her husband, Manford Johnson, and a daughter, Nola Johnson.

Mary had an unwavering faith in God, enjoyed studying the Bible and was active in church - including the Lutheran Women's Missionary League. She enjoyed all types of crafts, gardening, baking and she loved to travel.

There will be a small prayer service at 3:30 pm on Sunday September 17th in the Chapel on her property in Christmas Valley. In lieu of flowers, memorial donations may be made to The Leukemia & Lymphoma Society, Donor Services, PO Box 4072 Pittsfield, MA 01202 or [www.lls.org/](http://www.lls.org/)

## New Bill Increases Age to Purchase Tobacco

On August 10, 2017 Oregon Governor Kate Brown's signing of a new law that raises the required minimum age to legally buy or obtain tobacco products from 18 to 21 caps a year-long celebration of 20 years of tobacco prevention successes in the state.

Brown signed SB 754, known as Tobacco 21 and recently passed by the Oregon Legislature, making Oregon the fifth state to increase the age to purchase tobacco, after California, Hawaii, Maine and New Jersey. The new law takes effect immediately, with enforcement and fines to begin Jan. 1, 2018.

"The passage of Tobacco 21 is a tremendous accomplishment for public health in this state, and the young people of Oregon," said Oregon Health Authority Public Health Division Director Lillian Shirley. "Tobacco 21 is an evidence-based strategy that will help reduce youth initiation of tobacco. We know that most addiction to tobacco starts in adolescence—in fact, nine of 10 adults who smoke report that they started smoking before they turned 18, and almost 100 percent start before they turn 26."

She added, "We need to protect kids with laws such as Tobacco 21 because new marketing tactics and products with hookahs, e-cigarettes and flavored vaping products put a new generation at risk of addiction."

There's still work left to be done in Lake County. There are tobacco prevention

challenges in Lake County to help prevent future generations from starting to use tobacco. Cigarette smoking among pregnant women in Lake County is 20%. This is about twice as high in Oregon overall and the rest of the United States. Among 11th graders in Lake County non cigarette tobacco use is 60% higher than cigarette smoking. We want Lake County to be OUTBACK STRONG! Healthy Babies! Healthy Children! Healthy Everyone!

### What the law means for retailers and certified smoke shop owners:

Currently, there is no violation for people ages 18, 19, or 20 to possess tobacco products or inhalant delivery systems. Enforcement will take place at the retail locations that sell these products:

Effective immediately, retailers and certified smoke shops can no longer sell tobacco products, inhalant delivery systems, or tobacco delivery systems to people younger than 21. There are no exceptions for sales and use of tobacco or inhalant delivery systems to persons under 21 years of age.

Retailers and certified smoke shops that sell tobacco products or inhalant delivery systems are required to display a sign stating the prohibition of tobacco product or inhalant delivery system sales to persons younger than 21. Failure to post a sign stating this would be a Class A violation.

Enforcement of this law goes into effect Jan. 1, 2018.

## Playing with “Monopoly Money”

Katharine Matchette

Once upon a time people exchanged their goods and services for the goods and services others could give them. We call this bartering. The parties involved had to agree that the exchanged items had roughly equal value. Later, people made coins and bills valued according to a set standard. Later, they backed their currency with gold or silver, which at least tended to maintain the values of coins and bills. In eleventh-century China someone had a brainstorm. The government issued money that had value simply because the emperor said so. With this system a yen (or whatever) had no official fixed value. It simply bought what merchants would let it buy. That kind of money has a name, fiat money. The word fiat comes from Latin meaning “Let it be done,” or “It shall be done.”

Funny money came to the United States when the colonies issued “notes of credit.” Colonists could use these to pay their taxes. Knowing the value of their taxes, people began to use these notes as currency for other payments or purchases. However, when the United States issued its money, each dollar had fixed value in gold. People used the bills understanding they could redeem them for gold if they wished.

Fortunately, this epidemic of “pretend” money did not spread widely until the twentieth century. By then, the governments of most nations controlled issuing money. Then wars such as World War I made it impossible to actually redeem money. Governments found excuses to simply print more as they needed it. In pre-World-War II Germany this practice made shopping difficult. Prices inflated so much that to make a few simple purchases at the grocery, the shopper needed a wheelbarrow full of German marks.

Today our country operates with play, or monopoly money. During a time of crisis the government can and does print

more money and put it into circulation. We take it on faith that a dollar is a dollar. Sometimes we don’t notice when that dollar buys less and less, but it happens. As a kid I paid a nickel for a candy bar. What can you buy for a nickel today? That’s inflation that sneaks up on us. Then there’s the inflation that we never see when shopping. Think of all those jars with convex bottoms or the shrinking size of an ice cream carton.

Government and businesses take money on faith. Tight credit recently meant little money for anybody to borrow or invest. Once again we face national unbudgeted emergencies. And once more we hear threats of government shutdowns in the future. The simple answer: print more. Now we think it worked! Balance the federal budget? What’s wrong? Can’t the printing presses keep up with the demand? Who knows, maybe the deficit is as imaginary as all that play money. Meantime we’re all stuck in the game of pretend. Ain’t it fun?

(Note: This is not a scholarly look at the problem, but it’s the author’s take on an insoluble situation.)
