The winter months are here, the clocks have changed, and people are coming inside earlier. The Friends of the Library need more volunteers for the Hugger Hat Project. All of the yarn is donated and we provide the loom if you need one. Do you know how to knit? That is great! If you don't know how to knit, that is great too!

Help Fill a Local Need: Volunteer Your Time

Submitted

Find something in your community that suits you. This community primarily functions through volunteers. We have many new community members and this community can benefit from a little bit of your time. The many new community members tax the already over stretched, long standing volunteers that oil the works of the under supported needs of the north end communities.

If you have questions of how you can help feel free to contact me, Glenna Wade, via Facebook [glennasonly] and I can help you find an activity that suits you.²⁵

A Passport to the past (cont.)

Silver Lake Creamery, located on Main street north between 6th and 8th streets. This building still stands.
Liquor Store, "The Gallon House", owned by Jack McCarty, located on Center street north between 4th and 5th streets.
Torn down.

Barber Shop, owned by Earl Adams, later by Fred Adams, located next to the liquor store on Center street. Later it was moved across the street and is still standing.

Shoe Shop, owned by a Mr. Marshall, located on Main street next to the Blue Goose Hotel.

Odd Fellows Hall, built in 1910 and used as a dance hall, located on 3rd street, 2 blocks south and east of the Chrisman Hotel. Burned in 1945.

Pool Halls: The Pastime Hall, located on the west corner of Center and 2nd streets. Built by Bob Dinsmore in 1914. It was later operated by Jefferson Howard, George Emery, Pete Gruber with Clyde Nelson as proprietor when it went out of business in 1933. The Shamrock, operated by Billy Sutherland, located in the Blue Goose Hotel Building. Burned the same time as the hotel.

Doctor's Office and Drug Store, owned and operated by Dr. James W. Thom, located on Main street east of the Earl Corum residence. A tiny weather-beaten, false-fronted building. Still standing. Dr. Thom came to Silver Lake in 1904 and practiced here until 1924 when he moved to Bend.

A new school house was built in 1909, the same location as the school is now. This had three rooms and a basement. It had eight elementary grades and a high school. The first high school class graduated in 1914. Leston Linebaugh, one of the old-timers, was in the class. Sometime later a school room was made in the basement and a wood burning furnace installed. In two days after school started in the fall of 1920 it burned down. The school we have now was started in the summer of 1921. It took a long time to build so classes were held in the Church, the Chrisman Hotel and the Harness Shop.

Silver Lake has changed considerably since Center street was considered the business district. The majority of the business establishments are now located on Main street, which is Highway 31, the Bend-Lakeview highway. The town has a new Post Office building, a new Library, three garages, restaurant and bar, a grocery store and motel, two trailer parks and a feed store. It also maintains an ambulance service which is very essential to a spot from 50 to 100 miles to the nearest doctor. Electricity came to the valley in 1955, followed closely by telephone service.

Thank You Becky Womack
for sharing this with us.

OBITUARIES

Carolyn Silveria Pottorff

1936 ~ 2018

A Truly Colorful Character

Readers throughout Lake County have enjoyed many articles about *Colorful Characters from Paisley's Past* that Carolyn shared from her book of that title.

Carolyn's ties to Paisley and Lake County date back to 1905 when her great grandparents moved to the little town of Paisley from Silver Lake. They purchased a brick two-story house on the corner of Mill and Stratton and until recently Carolyn lived there.

Her grandparents - married 67 years - had two daughters, both were born in that home. The girls were both named after literary characters and of this Carolyn said, "I come from a long line of readers."

Her mother Audra met her husband Joe Silveria at a dance in Benefiel Hall - they were married in 1933 just after Audra graduated high school. Carolyn was born in 1936 and became a third generation student at Paisley School, graduating in 1954. She went on to attend Southern Oregon College in Ashland and Marylhurst College in Portland. Carolyn worked for the Department of Agriculture in Portland until retirement.

Coming home to Paisley, she moved into the family home and in no time she was involved in community activities. She was a member of Volunteers in Paisley and Easy Writers and was very active in Friends of Paisley Cemetery.

Recalling stories her grandmother, Neva McCall told her about Paisley history, she began researching old newspaper articles and then writing biographical sketches of people buried in the Paisley Cemetery.

In 2012 Carolyn was selected as Paisley Pioneer for the annual Mosquito Festival. More recently she helped plan the all-school Paisley school reunion that celebrated the school's 100th anniversary.

Carolyn is survived by her daughter Jo May and two grandsons, Joseph and Robert.

Sue Johnson

Sue Johnson passed away in January, 2018. Ron Johnson is hosting a party at the Lodge to celebrate her life.

This will be held on Feb. 10th, beginning at 3 pm until closing.
Fr. Jim will also be attending.

Sue was very involved in this County to include EMT, Public Health Nurse, Water Board, Desert Whispers, Park & Rec Board, EMS Board, and probably many other things.

If you knew her, or know Ron, Please come, as there are stories to be told and we want to hear them all!!

MOTOCROSS

Cruising through the Desert Whispers paper recently, I came upon a half-page ad for the High Desert MX (Motocross). This caught my eye in that we'd soon be greeted by a bunch of off-road motorcycle riders, most dressed in bright protective gear, to put a knobby tire in the amazingly wet, uncharacteristically frost free sand in Christmas Valley in the middle of January. Being a former dirt bike rider myself, this ad stirred a longing in me that injury has continually pushed by the wayside. So, I took the safer route and grabbed my camera and went to spectate on this surprisingly balmy mid January day.

Craig and Lana Evans, the track owners and builders have been having fun pushing around the dirt on their property at 56721 S. Fandango Rd. Craig laid out a nice track with some obstacles (jump)s and berms (corners) for riders to circulate on. He also split the classes up in a safe fashion to keep the kids on their smaller bikes, and the veteran riders on their larger machines separate from each other. It might be to keep the older riders from getting passed by a kid on a minibike and the blow to their sometimes fragile ego that could happen if such an event ever occurred. ?

If you are wanting to dust off that old irrigation bike in the barn, give Craig a call at (503) 488-9190. High Desert Mx also has links at highdesertmx@gmail.com and a Facebook page at [highdesertmx](https://www.facebook.com/highdesertmx). If a kid on a minibike happens to invite you to the track, be very wary, as they just might be looking to blow your doors off and roost you with sand as they go flying by.

BACK IN THYME

by Linda McCoslin

CYSTIC FIBROSIS (CF):

My granddaughter in Maine was recently diagnosed with CF, she is pregnant with twins, and wanted to know about the disease, and how to deal with it. I have been studying it for her and thought it would be an interesting article since most people know very little about it.

CF is the most common INHERITED illness among Americans of the northern and western European ancestry, most common in Caucasians, being 1 in 2,400 and is equally frequent in men and women. It is caused by a defect in a gene that encodes instructions for a protein that regulates the passage of salt in and out of the cells of the body's exocrine glands. In most people with CF, the genetic instructions omit just one of the proteins 1,480 constituent amino acids – a tiny glitch, but a devastating one that affects many different glands in the body, including the pancreas, sweat glands, and glands of the digestive and respiratory systems.

Generally, CF symptoms begin early in life! Glands in the lungs and bronchial tubes secrete large quantities of thick, stick mucus, that blocks lung passages and traps harmful bacteria, resulting in chronic coughing and wheezing, difficulty breathing, and recurrent lung infections. Thick secretions also often obstruct the release of pancreatic enzymes, resulting in digestive difficulties and malabsorption problems, particularly problems with the metabolism of fats. Malnutrition may result because a lack of necessary digestive enzymes means that nutrients from foods are not properly absorbed. This in turn can cause pain after eating and especially in young children, and failure to gain weight normally.

People with CF also lose excessive amounts of salt through their sweat glands. Sweating may be profuse, and the sweat itself contains abnormally high concentrations of sodium, potassium, and chloride salts. Other signs of CF could include clubbing of fingers and toes, (a result of poor circulation); infertility, greasy, bulky, foul smelling stools; and salty-tasting skin. An individual may have one or all of these symptoms. The gene responsible for CF was not identified until 1989, therefore some of us may not even know if we have CF unless we get tested. All human cells (except red blood cells, eggs, and sperm) contain two copies of this gene, one inherited from each parent. CF is abnormal and the other normal, a person is said to be a carrier; he or she will show no signs of CF, but is capable of passing a defective gene on to off springs. A child of two carrier parents has a 1-in-4 chance of being completely free of the mutant gene; or a 1-in-2 chance of being a carrier, like the parents. The test now available is a swab of the cheek cells to examine for the presence of defective genes, but the most widely used test is an electrolyte sweat test, that detects excessive amounts of electrolytes(charged mineral salts) found on the skin of many people with CF.

Some herbs that are good for people with CF are: Rose hips – high in vitamin C, Alfalfa extract – high in vitamin K and necessary minerals, and is a good source of chlorophyll.

Primrose oil for essential fatty acids. There are many other needed supplements but too many to list. Echinacea, Ginger, Goldenseal and Yarrow tea help with inflammation and pain.

Policy: Animals on Park and Rec Properties

North Lake Park and Rec

North Lake Park and Recreation District has adopted a policy concerning pets/animals on Park and Rec properties. This policy is an attempt to keep our facilities an enjoyable place for all users.

When on North Lake Park and Recreation property (including the Rodeo Grounds, Golf Course, Play Area, etc.) all domestic animals, whether pets, livestock, or other, must be leashed and/or under the direct control and supervision of their owner/handler. Any defecation (poop) from the animal must be cleaned up immediately by the owner/handler. Individuals failing to comply with this policy will be asked to leave Park and Rec property.

Animals freely roaming, with no apparent owner/handler in the area may be treated as strays. The proper authorities will then be contacted.

A Sincere Thank You

This month the North Lake Health District, (NLHD), would like to honor a woman who blew into town on a whim the notorious winter of 1992, and what a fortunate breeze it was that brought Shawn Lavalée into our midst. Shawn rolled into town in '51 Studebaker bus looking for a place to settle down after traveling the states. She met a man with property for sale 11 miles out of town, purchased it, and planted the roots of a life in Christmas Valley that would blossom in wide and wondrous ways.

The property was perfect! A home, outbuildings and trees; even a garden area. But the storms of that winter were severe and the property needed the work of a plumber which lead to her introduction to Steve Lavalée, who would later become her husband. Shawn's contributions to the residents of Christmas Valley began almost immediately and she's never slowed down. In her 26 years of residency, Shawn's list of community activism and participation is impressive. During the 90's she served as the President & Vice President of Friends of the Library, served as a Booster member, was the Vice President of the Women's and Children's Resources and started a walking club. In 2004 she began volunteering at the North Lake Clinic as the "Girl Friday" one day a week

performing a wide variety of duties to include blood/lab draws, scheduling and reception work. Soon her work evolved into a full-time position and she'd hoped to attend nursing school and become Pat Widenoja's assistant. Finding no openings available for

classes Shawn instead opted to go to massage school; completing the one-year program from which she made the Dean's List. By 2007 Shawn was back in full swing and joined the NLHD's team of providers, running her massage business, and for a brief period, returning one day a week at the Health Clinic working much the same duties she'd previously performed.

Since her arrival, Shawn has remained an advocate for community health and wellness in mind, body and spirit. She's supported the work of other providers assisting with physical therapy, acupuncture, naturopathic medicine, teaching yoga classes, continuing with massage and has worked diligently over the last few years to coordinate services from the Dental Van.

What's her next project? Shawn's currently promoting the Dolly Parton Imagination Library; a program providing monthly books, free of charge, to families of children 0-5 years of age and has graciously offered her services, supporting North Lake County EMS, as a volunteer ambulance driver. Knowing her "drive" we suspect it won't be long before she's pursuing EMT training!

On behalf of the entire community we offer our thanks and recognition for Shawn's many years supporting wellness in the community. For all the lives you've touched and those you've yet to enhance, we thank you.

You and your child are invited to join Mrs. Anthony on the first and third Thursdays of each month from 10:00 a.m. - 11:30 a.m. at the North Lake School annex building for a **Mommy and Me Play Group**.
