## Help Fill a Local Need: Volunteer Your Time

Submitted

Find something in your community that suits you. This community primarily functions through volunteers. We have many new community members and this community can benefit from a little bit of your time. The many new community members tax the already over stretched, long standing volunteers that oil the works of the under supported needs of the north end communities.

If you have questions of how you can help feel free to contact me, Glenna Wade, via Facebook [glennasonly] and I can help you find an activity that suits you.<sup>25</sup>

## A SPECIAL THANKS

Linda would like to thank the Christmas Valley EMT's and Air Link for the fast response and kindness. Thanks to you I am doing just fine.

## Friends of the Library: The Hugger Hat Project

Submitted

The winter months are here, the clocks have changed, and people are coming inside earlier. The Friends of the Library need more volunteers for the Hugger Hat Project. All of the yarn is donated and we provide the loom if you need one. Do you know how to knit? That is great! If you don't know how to knit, that is great too!

### Lakeview BLM offering sage grouse lek tours

LAKEVIEW, Ore. — The Bureau of Land Management is offering a series of guided tours of sage brush steppe areas during the upcoming sage-grouse breeding season. Participants will have the opportunity to learn how the Greater Sage-grouse serves as a barometer for rangeland health while also witnessing their fascinating springtime courtship rituals.

The Bureau of Land Management is committed to keeping public landscapes healthy and productive, in part by managing the sage brush steppe for a variety of uses, including ranching, hunting, mining and energy development.

The sage-grouse breeding season, also known as lekking, takes place for only four to six weeks in early spring at gathering sites called leks. Sage-grouse come to approximately 100 lek sites across Lake County to perform their courtship dance before breeding.

Guided tours will be offered to the public on March 10 and April 7, 2018. Viewing is limited to 20 people per tour in order to minimize the potential for disturbance to the sage-grouse. Reservations are on a first-come, first-serve basis. To reserve a spot, contact Larisa Bogardus at (541)-947-6237 or lbogardus@blm.gov by noon on Friday, March 9, for the March 10 tour or by noon on Friday, April 6 for the April 7 outing.

Viewers will depart at 6 a.m. from the BLM Lakeview District Office, 1301 South G Street, in Lakeview, Oregon. Carpooling is encouraged. Transportation may be provided depending on the number of participants, who should dress appropriately for field conditions. Sturdy, broken-in boots/shoes are encouraged, as participants will encounter rocky, rugged terrain, with sagebrush and rocks. Additionally, tours will require a hike of up to a half mile. There are no amenities and no restrooms. Participants should also plan to bring plenty of water, a hat, sunglasses, and sunscreen.

□BLM—

*The BLM manages more than 245 million acres of public land located primarily in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The agency's mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations. Diverse activities authorized on these lands generated \$75 billion in sales of goods and services throughout the American economy in fiscal year 2016—more than any other agency in the Department of the Interior. These activities supported more than 372,000 jobs.*

Howdy... My name is James Williams. I'm from Summer Lake, Oregon, and I am running for Lake County Commissioner, Position #2. I am 30 years old. I work as a Lumber Grader at Collins Pine Sawmill in Lakeview. My wife Linda Rebekka and I currently live between the family farm in Summer Lake on weekends and our small rental outside of Lakeview during the week. I have been blessed to live in Lake County most of my life. Summer Lake will always be my home, but I have grown to love every corner of this land. I think we take its raw beauty for granted at times, but are occasionally reminded of how special and amazing it is by something as simple as a vibrant sunset, or a morning chat with a friendly neighbor on the way to work. I decided to run for County Commissioner because I believe I can be of service. I feel I have a lot to offer my community. I bring a different perspective to the table, being from the central part of the County, and seeing the issues from both sides. I feel that I have a connection with folks from the north and south, east and west, and I come with a willingness to listen.

I will always be there to listen to my neighbors across Lake County. To stay informed and to keep "you" informed as to what is happening in and beyond our state.

A lot of folks have come to me feeling frustrated about representation. I understand how much decisions made in Salem and Washington can impact our lives here in our county, and how you may not always feel like you have a voice in the political forum. I want to be your voice and bring your concerns to light, and to help others understand not only your point of view, but also our way of life and culture in this part of Oregon. If you haven't lived in the High Desert, you simply won't know what it's like.

Whatever the issues are, be it our Constitutional rights, School safety, solar, drugs, property rights, starting a business, etc. I will not only point you in the right direction, I will work on it with you. I may not have all the answers, but starting a dialogue where we can talk about these issues in a civil manner, and find solutions is so very important. I will come to your house, I'll have more meetings, even on weekends if that is what is needed. Communication is a big deal, and in a county as big as ours, it is essential to making things work.

If you would like to get in touch with me, you can email me at [jameswilliams.lake@gmail.com](mailto:jameswilliams.lake@gmail.com), or you can find me on Facebook at [www.facebook.com/yourcountycommissioner/](http://www.facebook.com/yourcountycommissioner/)

## A Couple Great Opportunities

Your North Lake Health District, (NLHD) has openings for community members to be directly involved with decision making. One of our board members has announced their intent to retire from the board and we'll be looking to fill that vacated position by June 1, 2018. We're also preparing to submit our 2018-2019 annual budget. Serving on the NLHD Board is a prestigious and vital component in the ongoing effort to sustain, promote and provide health related services to the communities we serve. Its also a great way for community members to be actively involved in how tax dollars are spent with respect to local health services. This is a fantastic time to become a board member as your NLHD is currently looking at a variety of ways in which to invest in the community. Your ideas and involvement are needed, valued and always welcome. Interested parties are encouraged to attend Board meetings. Meetings are held the 1st Monday of every month @ 5:00 p.m. in the NLHD Conference Room, located in the west wing, at 87520 Bay Road, Christmas Valley, OR. You can also leave a message with your name and phone number at 541-576-2165; calls will be returned within 3 to 7 business days.

If a position on the board is more than you can commit to right now, here's another great opportunity. In addition to our need to fill a position on the Board, we're also looking for community members to service in a temporary capacity on our budget committee. Budget meetings will be held in the NLHD conference room at 5:30 p.m. on April 2nd, May 7th & June 4th to prepare our 2018-2019 budget for submission. Again, this is a terrific opportunity for community members to be actively involved in local services. Interested parties can contact Patty Effingham at her office or by calling 541-576-2640.

Its YOUR community; join us in our efforts to make it the best community it can be!

## INDIAN HERBOLOGY OF NORTH AMERICA

### PART 2

Indian Healers; The art of healing was a ceremonial in nature. Physical health often failed without the aid of spiritual means; dancing, chanting, ect. were conducted according to conditions, or severity of the patient. Their health and spiritual source were so closely connected with natural surroundings, they were inspired by the significance of nature and to the Sun, Moon, Stars, Rain, Wind, ect., that encouraged healing, today there are no temples and prayers; or songs of legend about the wise Indian medicine man, only a few words of "quack," "Medicine Man" or "Witch Doctor" in neglect.

Indian Healers were trained very early, selected from the family or from signs of devotion, wisdom and honesty, and because it was more than a career, they were elected by ability, trusted with all secrets, rituals, habits, and legends of their people, he was at the side of their leader. The trainee must know and remember the herbal species, their properties and uses. They knew their limitations and flower of the garden were not agents against the fate of death, but they were for sickness and health and to prolong life. All medical plants in the area were used, and were different in each location, but knew their immediate supply.

Modern medicine and natural healing still practice their theory. Both use strong steam to create perspiration, isolation of communicable diseases, fasting for health, physiological moments, special diet as to each case and of course herb. As a healer to all people he was a above tribal restriction, he cared for the wounded or needy. the Indian healer was an artist in the best tradition of Hippocrates principles, dearly treasured by us. Indians did not care much about the names of sick-

ness, only physical endurance, "mens sana in corpe ore sana" ( he can not chance a time of failure). Nervous tension, adrenal failure, heart attack, etc., was not a part of their early life; they could overcome a running deer, swim for days at a time, dance ceremonial dances for weeks. They used herbal tonics, and herbs for food as daily nourishment from spot on locations.

In our time, news of hunters or persons stranded in remote areas conclusively have stress exhaustion, from either fear of starving, exposure, or hunger. The survival alone depends on the identification of plants, is worthwhile for those involved and reassuring for those concerned, that stay at home. Due to physical dependence they had to build energy for bravery in hunting or fighting, which is known in our time as serve strength, adrenal secretions, and hormone balance. Basically, our original people were constitutionally more fit the we are in our refined, poluted, chemical, tense way of provoking existence. Their Nature healers were thought of as inspired individuals with vivid importance to their people, who when necessary administered innocent remedies, which NEVER injured their patients. They soon recovered without the acure or chronic symptoms of modern preparations. They never claimed to know more than our physicians - but simply relied on the created organic properties of plants and the blood through it circulation that knows more about individual chemical balance then any technical equipment or means. They never analyzed a cell, bacteria, germs or micro organisms of any kind. Their psychology was as Cor. I 12; 20-26 " God hath tempered the body together that there should be

no schism in the body but that the members should have the same care on for another, and whether one suffers, all suffer with".

NATURE AND WISDOM ARE ONE AND THE SAME is the explanation of medical culture of the past.
